

Happy cristal A Christmas fairy tale

Are you sitting comfortably, ready to hear a lovely story that begins like all fairy stories, "Once upon a time"?

Once upon a time there was Wingen-sur-Moder, a little town nestled in the forest in the Northern Vosges Mountains, bordering on Alsace. The thriving local glass industry had long since died out, until the day a magician by the name of René Lalique took an interest in its fate. His intervention produced a factory where - thanks to the know-how of the local people and the talent of the artist-magician - glass objects were produced by the thousands.

From that day on, the factory has continued producing increasingly wonderful glass! Lalique crystal, produced exclusively in Wingen-sur-Moder, is synonymous of luxury and refinement worldwide. Every year when Christmas comes round, the Lalique Museum and the Société Lalique join forces to present Happy Crystal, creating a fairytale environment.

A Christmas fairytale

Christmas means magic, childhood, and enchantment. From 29 November to 6 January 2019, Happy Crystal takes you on a journey through the tales of childhood! Who will appear in the wicked queen's mirror in the story of Snow White? What does the palace of the sea king look like in the tale of the Little Mermaid? A dozen famous fairy stories are featured, from Goldilocks to Cinderella. The Lalique Museum has prepared some enchanting tableaux, all featuring the dazzling powers of crystal.

Bonus

Advent Calendar: from the 1st to the 24th of December, each day a visitor to the museum will open a window of the Happy Crystal Advent Calendar, revealing the object or objects hidden behind the windows day by day! Visitors who take part in the ritual will receive a gift to take home with them!
